

ACA Reporting Services

messa.org

The Affordable Care Act requires employers to file health coverage information with the IRS and provide 1095-C statements to their full-time employees, showing the health coverage they've been offered.

Our ACA reporting services, accessed at our secure online benefits website, will compile ACA compliance data to assist you in completing and generating 1095-C statements for your employees.

You can then decide whether you'd like to distribute these forms yourself or have MESSA do it for you.

In order to satisfy your IRS reporting requirements, you can also use our ACA reporting services to electronically send a set of 1095-C forms and the 1094-C transmittal form to the IRS.

Let MESSA do this work for you:

Because MESSA is your employee benefits provider, we have all the information needed to simplify your IRS Affordable Care Act reporting requirements.

For more information, visit the Business Administration Center at messa.org. To get started with this service, you can call us at **888-888-4167 ext. 5517** or email us at **messabenefitsadministration@messa.org**.
